

We Have just learned that the FCC is considering changing broadcast service to give priority to LPFM which would override existing FM broadcast stations and thus take from us the right to listen to our favorite radio stations now well serving our area as FM broadcasters.

The stations we now listen to carry information we have come to rely on and in a format that satisfies our needs. K-LOVE is our favorite and is listened to on a daily basis and we would lose a vital link to our preferred programing and information broadcasts if this station were taken from us. We have no desire to have any LPFM stations nor do we see any need for such. The local news, national news, vital emergency information and all our favorite broadcasters and music would be lost to us should these unwanted LPFM stations be allowed to take over the airways now so well served by existing stations. Please do not take away our freedom to chose the radio station we want and need. K-Love provides a much needed and relied on service to our area and in other parts of the nation. Please allow it to remain for the good of all. There is no evidence that the proposed new stations would provide the type of programing we need and which is so well supplied by K-LOVE.
